**INFORMATION CONTAINED IN THIS REPORT ON FORM 6-K**

On January 21, 2020, Tiziana Life Sciences plc (the “Company”) issued a regulatory news service announcement in the United Kingdom Reporting the Appointment of Mr. Gregor MacRae to Strengthen and Diversify its Board (the “RNS Announcement”).

The RNS Announcement is furnished herewith as Exhibit 99.1 to this Report on Form 6-K. The information in the attached Exhibit 99.1 is being furnished and shall not be deemed “filed” for the purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to the liabilities of that Section, nor shall it be deemed incorporated by reference in any filing made by the Company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, except as otherwise set forth herein or as shall be expressly set forth by specific reference in such a filing.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

99.1	<a href="#">Regulatory News Service Announcement, dated January 21, 2020</a>

**Tiziana Life Sciences plc**  
**(“Tiziana” or the “Company”)**

**Tiziana Life Sciences Announces Appointment of Mr. Gregor MacRae to strengthen the Board**

New York/London, 21 January 2020 - Tiziana Life Sciences plc (Nasdaq: TLSA / AIM: TILS), a biotechnology company focusing on the discovery and development of innovative therapeutics for inflammation and oncology indications, is pleased to announce appointment of Mr. Gregor MacRae to its Board as a Non-executive Director.

Mr. Gregor MacRae holds a Law degree (LLB Hons) from the University of Birmingham. He is a qualified Chartered Accountant (ICAEW) and has been a financial and business strategy adviser to multiple companies. Presently, Gregor is the Senior Partner of Appledore Wealth Management LLP, a London-based high net worth business advisory partnership. Gregor also served as a director of Chiltern Group Plc, an international trust company.

“I am delighted to join the Board of Tiziana and I am looking forward to working with the Company. I believe my experience as an advisor to several international companies over the last 25 years will compliment Tiziana and I am more than happy to join the Company at this exciting time”, said Gregor MacRae.

“We are delighted to have Gregor join our team as he brings rich experience to help and advise companies in their financial and business strategies. His appointment is a step towards reshaping the Board ahead of the Company’s intention to become a solely NASDAQ listed company” said Dr. Shailubhai, CEO & CSO of Tiziana Life Sciences.

Tiziana Life Sciences previously announced that it has appointed advisers in relation to an intended redomicile of the Company to Bermuda, to delist the Company’s ordinary shares from its AIM listing and to cancel its ADR program in order to facilitate listing of its Bermuda common shares on NASDAQ. As a result, Tiziana Life Sciences will only be listed on NASDAQ and all current ADRs and AIM shares will be replaced by NASDAQ shares.

In 2019 Tiziana announced the successful completion of three clinical studies, a phase 2a clinical trial with milciclib in sorafenib-resistant hepatocellular carcinoma, a phase 1 study with nasal administration of Foralumab, a fully human anti-CD3 monoclonal antibody, and a phase 1 clinical trial with oral administration of Foralumab.

**About Tiziana Life Sciences**

Tiziana Life Sciences plc is a UK biotechnology company that focuses on the discovery and development of novel molecules to treat human disease in oncology and immunology. In addition to Milciclib, the Company is also developing Foralumab for liver diseases. Foralumab is the only fully human anti-CD3 monoclonal antibody in clinical development in the world. This Phase 2 compound has potential application in a wide range of autoimmune and inflammatory diseases, such as nonalcoholic steatohepatitis ("NASH"), ulcerative colitis, multiple sclerosis, type-1 diabetes ("T1D"), Crohn's disease, psoriasis and rheumatoid arthritis, where modulation of a T-cell response is desirable.

### **Forward-Looking Statements**

Certain statements made in this announcement are forward-looking statements. These forward-looking statements are not historical facts but rather are based on the Company's current expectations, estimates, and projections about its industry; its beliefs; and assumptions. Words such as 'anticipates,' 'expects,' 'intends,' 'plans,' 'believes,' 'seeks,' 'estimates,' and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties, and other factors, some of which are beyond the Company's control, are difficult to predict, and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. The Company cautions security holders and prospective security holders not to place undue reliance on these forward-looking statements, which reflect the view of the Company only as of the date of this announcement. The forward-looking statements made in this announcement relate only to events as of the date on which the statements are made. The Company will not undertake any obligation to release publicly any revisions or updates to these forward-looking statements to reflect events, circumstances, or unanticipated events occurring after the date of this announcement except as required by law or by any appropriate regulatory authority.
